

Product Specification HTS-101

APPLICATION

The HTS-101 functions as a hydraulic supply unit for aircraft during maintenance and test procedures.

GENERAL CHARACTERISTICS

Two Supply Lines
Dual Flow Function
Aircraft Reservoir Drain and Fill Function
Towable

DIMENSIONS

Height	1900 mm
Width	1980 mm
Length	3000 mm

MOBILITY

Max. Speed	25 km/h
------------	-------	---------

ENGINE SPECIFICATIONS

Engine Type	Diesel
Model No	Cummins QSL280
Rated output	280 HP

ELECTRICAL CHARACTERISTICS

12 Volt System

HYDRAULICS PERFORMANCE

Flow Capacity per line	0-53 GPM
Dual Flow Capacity	0-106 GPM
Pressure Range	0-5000 PSI
Filtration	3 micron
